DEFENDANT'S EXHIBIT

CASE NO. C04-0360P

EXHIBIT NO. 497

TX497-001

LIQUOR PURCHASES BY CLASS H LICENSEES

WAC 314-16-110 was amended to authorize a liquor delivery service business to pick up multiple orders and deliver them to class H licensees in the course of a days business rather than the former onerous requirement of each order for a class H licensee being picked up and delivered separately.

PROHIBITED PRACTICES—CONTRACTS—GIFTS—REBATES, ETC.

WAC 314-12-140 was amended to make the prohibitions against a manufacturer, wholesaler or importer from furnishing money or money's worth to a retail licensee equally applicable to applicants for a retail license.

PRIVATE CLUB—PUBLIC MEMBERSHIP FUNCTION

WAC 314-40-040 was amended to allow a private club to hold one public membership function per calendar year where club liquor may be given to those attending as a part of the membership drive activities.

BANQUET PERMITS ON FERRY SYSTEM VESSELS

WAC 314-18-040 was amended to require an applicant for a banquet permit on a state ferry to furnish written approval of a Washington State Ferry System official with the application.

PERMISSION FOR BEER AND/OR WINE ONLY LICENSEES TO KEEP SPIRITUOUS LIQUOR FOR MANUFACTURING CONFECTIONARY OR FOOD PRODUCTS

WAC 314-16-040 was amended to authorize holders of beer and/or wine only licenses to keep spirituous liquor on the premises for use in manufacturing of confection or food products, provided that written approval of the Board is obtained. This authorization replaced the requirement that a permit for that purpose be obtained from the Board.

LICENSING AND OPERATION OF BONDED WINE WAREHOUSES

WAC 314-24-220—This rule implements, pursuant to RCW 66.24.185, a class N bonded wine warehouse license for the storage of federally bonded bottled wine only off the premises of a domestic winery or a winery holding a certificate of approval. The rule outline the types and nature of the specific details which are needed to accompany the application. All receipts of and shipments of wine to include inventory on hand must be reported monthly to the Board. Class N licensees may ship only to licensed Washington wine wholesalers, the Board, the producing winery, another bonded wine warehouse or for export out of the state. Class N licensees must secure and maintain a surety bond in the amount of $5,000.

PUBLIC INFORMATION

The Information Office continued to have an active role in developing liquor moderation program materials. There was a concentrated effort to provide the public with information which was relative to the drinking driver awareness programs conducted by other state agencies. This cooperative effort helped maximize the impact educational literature had on the public and provide the most benefit for the investment.

As in the past, the Information Office worked as an ex-officio member of AWARE, the industry public information/education group. A combined effort by the Enforcement Division and Information Office resulted in participation in an industry educational program aimed at legislators, civic leaders and other agencies in addition to the media. Future plans will involve the Liquor Control Board in similar projects which will ensure the agency's overall moderation philosophy extends into such projects.

The Information Office was involved in the KING Care Cab program which began prior to Thanksgiving and extended through New Year's Day in King County. Utilizing the liquor distribution system already in place, the Liquor Control Board provided display dissemination service for this program to all stores and agencies within King County.
